

# SAFETY DATA SHEET

## 1. Identification

**Material name:** EUCEM CGA 10 HS

**Material:** CGA 10 HS

**Recommended use and restriction on use**

**Recommended use:** Additive

**Restrictions on use:** Not known.

**Manufacturer/Importer/Supplier/Distributor Information**

EUCLID CHEMICAL COMPANY

19218 REDWOOD ROAD

CLEVELAND OH 44110

US

**Contact person:**

EH&S Department

**Telephone:**

216-531-9222

**Emergency telephone number:**

1-800-424-9300 (US); 1-613-996-6666 (Canada)

## 2. Hazard(s) identification

### Hazard Classification

#### Health Hazards

Acute toxicity (Oral)

Category 4

#### Unknown toxicity - Health

Acute toxicity, oral 53.47 %

Acute toxicity, dermal 25.01 %

Acute toxicity, inhalation, vapor 73.1 %

Acute toxicity, inhalation, dust or mist 71.66 %

### Label Elements

**Hazard Symbol:**

**Signal Word:**

Warning

**Hazard Statement:**

Harmful if swallowed.

### Precautionary Statements

|                    |                                                                                                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>Prevention:</b> | Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product.               |
| <b>Response:</b>   | IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.                                                         |
| <b>Disposal:</b>   | Dispose of contents/ container to an approved facility in accordance with local, regional, national and international regulations. |

**Hazard(s) not otherwise classified (HNOC):** None.

## 3. Composition/information on ingredients

### Mixtures

| Chemical Identity | CAS number | Content in percent (%)* |
|-------------------|------------|-------------------------|
| Diethylene glycol | 111-46-6   | 10 - <25%               |
| Glycerine         | 56-81-5    | 5 - <10%                |
| Ethylene glycol   | 107-21-1   | 0.1 - <1%               |
| Ethanolamine      | 141-43-5   | 0.1 - <1%               |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## 4. First-aid measures

### Description of necessary first-aid measures

|                                                      |                                                                                                                                                                                 |
|------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation:</b>                                   | Move to fresh air.                                                                                                                                                              |
| <b>Skin Contact:</b>                                 | Wash skin thoroughly with soap and water. If skin irritation occurs: Get medical advice/attention.                                                                              |
| <b>Eye contact:</b>                                  | Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. If eye irritation persists: Get medical advice/attention. |
| <b>Ingestion:</b>                                    | Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.                                                                                                                    |
| <b>Personal Protection for First-aid Responders:</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.                                                                                   |

### Most important symptoms/effects, acute and delayed

|                  |                                    |
|------------------|------------------------------------|
| <b>Symptoms:</b> | May cause skin and eye irritation. |
| <b>Hazards:</b>  | No data available.                 |

### Indication of immediate medical attention and special treatment needed

|                   |                          |
|-------------------|--------------------------|
| <b>Treatment:</b> | Symptoms may be delayed. |
|-------------------|--------------------------|

## 5. Fire-fighting measures

**General Fire Hazards:** No unusual fire or explosion hazards noted.

### Suitable (and unsuitable) extinguishing media

**Suitable extinguishing media:** Use fire-extinguishing media appropriate for surrounding materials.

**Unsuitable extinguishing media:** Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical:** During fire, gases hazardous to health may be formed.

### Special protective equipment and precautions for fire-fighters

**Special fire-fighting procedures:** No data available.

**Special protective equipment for fire-fighters:** Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures:** No data available.

**Accidental release measures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

**Methods and material for containment and cleaning up:** Dam and absorb spillages with sand, earth or other non-combustible material. Collect spillage in containers, seal securely and deliver for disposal according to local regulations.

**Environmental Precautions:** Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

## 7. Handling and storage

### Handling

**Technical measures (e.g. Local and general ventilation):** Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of vapors and mist. Mechanical ventilation or local exhaust ventilation may be required.

**Safe handling advice:** Do not taste or swallow. Wash hands thoroughly after handling. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Contact avoidance measures:** No data available.

**Hygiene measures:** Observe good industrial hygiene practices. Do not eat, drink or smoke when using the product. Wash hands after handling.

## Storage

**Safe storage conditions:** Store away from incompatible materials. Store in original tightly closed container.

**Safe packaging materials:** No data available.

## 8. Exposure controls/personal protection

### Control Parameters

#### Occupational Exposure Limits

| Chemical Identity                     | Type | Exposure Limit Values                          | Source                                                                                  |
|---------------------------------------|------|------------------------------------------------|-----------------------------------------------------------------------------------------|
| Glycerine - Total dust.               | PEL  | 15 mg/m3                                       | US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006) |
| Glycerine - Respirable fraction.      | PEL  | 5 mg/m3                                        | US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006) |
| Glycerine - Total dust.               | TWA  | 50 millions of particles per cubic foot of air | US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (09 2016)                             |
|                                       | TWA  | 15 mg/m3                                       | US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (09 2016)                             |
| Glycerine - Respirable fraction.      | TWA  | 15 millions of particles per cubic foot of air | US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (09 2016)                             |
|                                       | TWA  | 5 mg/m3                                        | US. OSHA Table Z-3 (29 CFR 1910.1000), as amended (09 2016)                             |
| Ethylene glycol - Aerosol, inhalable. | STEL | 10 mg/m3                                       | US. ACGIH Threshold Limit Values, as amended (03 2017)                                  |
| Ethylene glycol - Vapor fraction      | TWA  | 25 ppm                                         | US. ACGIH Threshold Limit Values, as amended (03 2017)                                  |
|                                       | STEL | 50 ppm                                         | US. ACGIH Threshold Limit Values, as amended (03 2017)                                  |
| Ethanolamine                          | TWA  | 3 ppm                                          | US. ACGIH Threshold Limit Values, as amended (2011)                                     |
|                                       | STEL | 6 ppm                                          | US. ACGIH Threshold Limit Values, as amended (2011)                                     |
|                                       | PEL  | 3 ppm      6 mg/m3                             | US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000), as amended (02 2006) |

| Chemical name                         | Type    | Exposure Limit Values | Source                                                                                                                                        |
|---------------------------------------|---------|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Glycerine - Respirable mist.          | TWA     | 3 mg/m3               | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (07 2007) |
| Glycerine - Mist.                     | TWA     | 10 mg/m3              | Canada. Quebec OELs. (Ministry of Labor - Regulation respecting occupational health and safety), as amended (09 2017)                         |
| Glycerine - Respirable fraction.      | TWA     | 3 mg/m3               | Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents), as amended (01 2020)                                            |
| Glycerine - Inhalable fraction.       | TWA     | 10 mg/m3              | Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents), as amended (01 2020)                                            |
| Glycerine - Total mist                | TWA     | 10 mg/m3              | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (06 2021) |
| Ethylene glycol - Vapor.              | CEILING | 50 ppm                | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (07 2007) |
| Ethylene glycol - Vapor and mist.     | CEILING | 50 ppm 127 mg/m3      | Canada. Quebec OELs. (Ministry of Labor - Regulation respecting occupational health and safety), as amended (09 2017)                         |
| Ethylene glycol - Aerosol, inhalable. | STEL    | 10 mg/m3              | Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents), as amended (01 2020)                                            |
| Ethylene glycol - Aerosol total       | CEILING | 100 mg/m3             | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (06 2022) |
|                                       | TWA     | 10 mg/m3              | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (06 2022) |
|                                       | STEL    | 20 mg/m3              | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (06 2022) |
| Ethanolamine                          | TWA     | 3 ppm                 | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (07 2007) |
|                                       | STEL    | 6 ppm                 | Canada. British Columbia OELs: Table of Exposure Limits for Chemical Biological Substances (Workers Compensation Board); as amended (07 2007) |
| Ethanolamine                          | STEL    | 6 ppm                 | Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents), as amended (11 2010)                                            |
|                                       | TWA     | 3 ppm                 | Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents), as amended (11 2010)                                            |
| Ethanolamine                          | STEL    | 6 ppm 15 mg/m3        | Canada. Quebec OELs. (Ministry of Labor - Regulation respecting occupational health and safety), as amended (09 2017)                         |
|                                       | TWA     | 3 ppm 7.5 mg/m3       | Canada. Quebec OELs. (Ministry of Labor - Regulation respecting occupational health and safety), as amended (09 2017)                         |

**Appropriate Engineering Controls**

Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of vapors and mist. Mechanical ventilation or local exhaust ventilation may be required.

### Individual protection measures, such as personal protective equipment

|                                  |                                                                                                                          |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Eye/face protection:</b>      | Wear safety glasses with side shields (or goggles).                                                                      |
| <b>Skin Protection</b>           |                                                                                                                          |
| <b>Hand Protection:</b>          | Additional Information: Use suitable protective gloves if risk of skin contact.                                          |
| <b>Skin and Body Protection:</b> | Wear suitable protective clothing.                                                                                       |
| <b>Respiratory Protection:</b>   | In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.                            |
| <b>Hygiene measures:</b>         | Observe good industrial hygiene practices. Do not eat, drink or smoke when using the product. Wash hands after handling. |

## 9. Physical and chemical properties

### Appearance

|                                                 |                    |
|-------------------------------------------------|--------------------|
| <b>Physical state:</b>                          | liquid             |
| <b>Form:</b>                                    | liquid             |
| <b>Color:</b>                                   | Amber to brown     |
| <b>Odor:</b>                                    | Characteristic     |
| <b>Odor threshold:</b>                          | No data available. |
| <b>pH:</b>                                      | 7                  |
| <b>Melting point/freezing point:</b>            | No data available. |
| <b>Initial boiling point and boiling range:</b> | No data available. |
| <b>Flash Point:</b>                             | Not applicable     |
| <b>Evaporation rate:</b>                        | Slower than Ether  |
| <b>Flammability (solid, gas):</b>               | No                 |

### Upper/lower limit on flammability or explosive limits

|                                                 |                    |
|-------------------------------------------------|--------------------|
| <b>Flammability limit - upper (%):</b>          | No data available. |
| <b>Flammability limit - lower (%):</b>          | No data available. |
| <b>Explosive limit - upper:</b>                 | No data available. |
| <b>Explosive limit - lower:</b>                 | No data available. |
| <b>Vapor pressure:</b>                          | No data available. |
| <b>Vapor density:</b>                           | No data available. |
| <b>Relative density:</b>                        | 1.11               |
| <b>Solubility(ies)</b>                          |                    |
| <b>Solubility in water:</b>                     | Soluble            |
| <b>Solubility (other):</b>                      | No data available. |
| <b>Partition coefficient (n-octanol/water):</b> | No data available. |

|                                   |                    |
|-----------------------------------|--------------------|
| <b>Auto-ignition temperature:</b> | No data available. |
| <b>Decomposition temperature:</b> | No data available. |
| <b>Viscosity:</b>                 | No data available. |

## 10. Stability and reactivity

|                                            |                                                                                                 |
|--------------------------------------------|-------------------------------------------------------------------------------------------------|
| <b>Reactivity:</b>                         | No data available.                                                                              |
| <b>Chemical Stability:</b>                 | Material is stable under normal conditions.                                                     |
| <b>Possibility of hazardous reactions:</b> | No data available.                                                                              |
| <b>Conditions to avoid:</b>                | Avoid heat or contamination.                                                                    |
| <b>Incompatible Materials:</b>             | Strong acids. Strong bases.                                                                     |
| <b>Hazardous Decomposition Products:</b>   | Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors. |

## 11. Toxicological information

### Information on likely routes of exposure

|                      |                                                                                               |
|----------------------|-----------------------------------------------------------------------------------------------|
| <b>Inhalation:</b>   | In high concentrations, vapors, fumes or mists may irritate nose, throat and mucus membranes. |
| <b>Skin Contact:</b> | May be harmful in contact with skin. Causes mild skin irritation.                             |
| <b>Eye contact:</b>  | Eye contact is possible and should be avoided.                                                |
| <b>Ingestion:</b>    | Harmful if swallowed.                                                                         |

### Symptoms related to the physical, chemical and toxicological characteristics

|                      |                    |
|----------------------|--------------------|
| <b>Inhalation:</b>   | No data available. |
| <b>Skin Contact:</b> | No data available. |
| <b>Eye contact:</b>  | No data available. |
| <b>Ingestion:</b>    | No data available. |

### Information on toxicological effects

#### Acute toxicity (list all possible routes of exposure)

|                            |                        |
|----------------------------|------------------------|
| <b>Oral Product:</b>       | ATEmix: 1,976.66 mg/kg |
| <b>Dermal Product:</b>     | ATEmix: 4,468.66 mg/kg |
| <b>Inhalation Product:</b> |                        |

**Specified substance(s):**

|                   |                            |
|-------------------|----------------------------|
| Diethylene glycol | LC 50 (Rat): > 4.6 mg/l    |
| Glycerine         | LC 50 (Rat): > 5,850 mg/m3 |
| Ethylene glycol   | LC 50 (Rat): > 2.5 mg/l    |

**Repeated dose toxicity**

**Product:** No data available.

**Skin Corrosion/Irritation**

**Product:** No data available.

**Specified substance(s):**

|                   |                                         |
|-------------------|-----------------------------------------|
| Diethylene glycol | in vivo (Human): Slightly irritating    |
| Ethylene glycol   | in vivo (Rabbit): Not irritant , 8 d    |
| Ethanolamine      | in vivo (Rabbit): Corrosive , 24 - 72 h |

**Serious Eye Damage/Eye Irritation**

**Product:** No data available.

**Specified substance(s):**

|                   |                            |
|-------------------|----------------------------|
| Diethylene glycol | Rabbit, 24 h: Not irritant |
| Ethylene glycol   | Rabbit, 24 h: Not irritant |

**Respiratory or Skin Sensitization**

**Product:** No data available.

**Carcinogenicity**

**Product:** No data available.

**IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:**

No carcinogenic components identified

**US. National Toxicology Program (NTP) Report on Carcinogens:**

No carcinogenic components identified

**US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended:**

No carcinogenic components identified

### Germ Cell Mutagenicity

**In vitro**  
**Product:** No data available.

**In vivo**  
**Product:** No data available.

**Reproductive toxicity**  
**Product:** No data available.

**Specific Target Organ Toxicity - Single Exposure**  
**Product:** No data available.

**Specific Target Organ Toxicity - Repeated Exposure**  
**Product:** No data available.

**Aspiration Hazard**  
**Product:** No data available.

**Other effects:** No data available.

## 12. Ecological information

### Ecotoxicity:

#### Acute hazards to the aquatic environment:

**Fish**  
**Product:** No data available.

**Specified substance(s):**

|                   |                                                                               |
|-------------------|-------------------------------------------------------------------------------|
| Diethylene glycol | LC 50 (Pimephales promelas, 96 h): 75,200 mg/l Experimental result, Key study |
| Glycerine         | LC 50 (Oncorhynchus mykiss, 96 h): 54,000 mg/l Experimental result, Key study |
| Ethylene glycol   | LC 50 (Pimephales promelas, 96 h): 72,860 mg/l Experimental result, Key study |
| Ethanolamine      | LC 50 (Cyprinus carpio, 96 h): 349 mg/l Experimental result, Key study        |

**Aquatic Invertebrates**  
**Product:** No data available.

**Specified substance(s):**

|                 |                                                                                                   |
|-----------------|---------------------------------------------------------------------------------------------------|
| Glycerine       | LC 50 (Daphnia magna, 48 h): 1,955 mg/l experimental result Experimental result, Supporting study |
| Ethylene glycol | EC 100 (Daphnia magna, 48 h): > 100 mg/l experimental result Experimental result, Key study       |
| Ethanolamine    | EC 50 (Daphnia magna, 48 h): 65 mg/l experimental result Experimental result, Key study           |

**Chronic hazards to the aquatic environment:**

**Fish**

**Product:** No data available.

**Specified substance(s):**

|                 |                                                                                                            |
|-----------------|------------------------------------------------------------------------------------------------------------|
| Ethylene glycol | NOAEL (Pimephales promelas): 15,380 mg/l experimental result Experimental result, Weight of Evidence study |
|-----------------|------------------------------------------------------------------------------------------------------------|

**Aquatic Invertebrates**

**Product:** No data available.

**Specified substance(s):**

|                   |                                                                                                                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Diethylene glycol | NOAEL (Daphnia magna): > 15,000 mg/l read-across based on grouping of substances (category approach) Read-across based on grouping of substances (category approach), Weight of Evidence study |
| Ethanolamine      | NOAEL (Daphnia magna): 0.85 mg/l experimental result Experimental result, Key study                                                                                                            |

**Toxicity to Aquatic Plants**

**Product:** No data available.

**Persistence and Degradability**

**Biodegradation**

**Product:** No data available.

**Specified substance(s):**

|                 |                                                                     |
|-----------------|---------------------------------------------------------------------|
| Glycerine       | 94 % Detected in water. Experimental result, Key study              |
| Ethylene glycol | 90 - 100 % (10 d) Detected in water. Experimental result, Key study |
| Ethanolamine    | > 90 % (21 d) Detected in water. Experimental result, Key study     |

**BOD/COD Ratio**

**Product:** No data available.

**Bioaccumulative potential**

**Bioconcentration Factor (BCF)**

**Product:** No data available.

**Specified substance(s):**

|                   |                                                                                                       |
|-------------------|-------------------------------------------------------------------------------------------------------|
| Diethylene glycol | Leuciscus idus, Bioconcentration Factor (BCF): 100 Aquatic sediment<br>Experimental result, Key study |
| Ethanolamine      | Bioconcentration Factor (BCF): 9.2 Aquatic sediment QSAR, Key study                                   |

**Partition Coefficient n-octanol / water (log Kow)**

**Product:** No data available.

**Specified substance(s):**

|                   |                |
|-------------------|----------------|
| Diethylene glycol | Log Kow: -1.47 |
| Glycerine         | Log Kow: -1.76 |
| Ethylene glycol   | Log Kow: -1.36 |
| Ethanolamine      | Log Kow: -1.31 |

**Mobility in soil:** No data available.

**Other adverse effects:** No data available.

**13. Disposal considerations**

**Disposal methods:** Dispose of waste at an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

**Contaminated Packaging:** No data available.

**14. Transport information**

**TDG:**

Not Regulated

**CFR / DOT:**

Not Regulated

**IMDG:**

Not Regulated

**Further Information:**

The above shipping description may not be accurate for all container sizes and all modes of transportation.  
Please refer to Bill of Lading.

**15. Regulatory information**

#### US Federal Regulations

##### **TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

None present or none present in regulated quantities.

##### **US. Toxic Substances Control Act (TSCA) Section 5(a)(2) Proposed Significant New Use Rules (SNURs) (40 CFR 721, Subpt E)**

None present or none present in regulated quantities.

##### **US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053), as amended**

None present or none present in regulated quantities.

##### **CERCLA Hazardous Substance List (40 CFR 302.4):**

| <u>Chemical Identity</u> | <u>Reportable quantity</u> |
|--------------------------|----------------------------|
| Ethylene glycol          | 5000 lbs.                  |

##### **Superfund Amendments and Reauthorization Act of 1986 (SARA)**

###### **Hazard categories**

Immediate (Acute) Health Hazards  
Acute toxicity (any route or exposure)

##### **US. EPCRA (SARA Title III) Section 304 Extremely Hazardous Substances Reporting Quantities and the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Hazardous Substances**

Not Regulated.

##### **US. EPCRA (SARA Title III Section 313 Toxic Chemical Release Inventory (TRI) Reporting**

Not Regulated.

##### **Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)**

None present or none present in regulated quantities.

##### **Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3)**

None present or none present in regulated quantities.

#### US State Regulations

##### **US. California Proposition 65**

###### **WARNING**

Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

#### International regulations

##### **Montreal protocol**

Not applicable

##### **Stockholm convention**

Not applicable

##### **Rotterdam convention**

Not applicable

**Kyoto protocol**  
Not applicable

**VOC:**  
Regulatory VOC (less water and  
exempt solvent) : 18 g/l  
VOC Method 310 : 1.10 %
